PEDIGREED
PANSIES

WHOLESALE SEASON OF
1931-32

HARROLD'S
PANSY GARDENS
P. O. BOX 264
GRANTS PASS, ORE.
**MIXED COLOR VARIETIES**

**NOVELTIES**

**Harrold's Pedigreed Pot Pansies:**
This Harrold origination has been highly praised by many growers who have used it, and received a special award of merit last winter, at The National Mid-winter Flower Show. They are of short compact habit, bearing flowers of really giant size in a wide range of colors.

**Harrold's Pedigreed Cut Flower Pansies:**
This strain has been bred to the exacting demands for a Pansy that fills the cut-flower requirements of size and color; produced on long stems. A good indoor forcing, and an excellent profit producer in any active market.

Strong seedling plants: $2.00 per 100; $18.00 per 1,000.

**GROUP “A”**

**Harrold's Azure Giants:**
A blue companion to our Ruby Giants introduced last season. It is a brilliant, glowing blue that is so popular in formal plantings. Just a shade darker than Azure, with dark blushed center. Plant habit compact, medium tall; upright. Profused flowering.

**Harrold's Ruby Giants:**
The coloring of this variety is almost beyond description, there being a marked tendency toward the red, pink, salmon, and orange shades. While a few purple, blue, and yellow flowers are produced, white is almost never found. Flowers are mostly of the five blushed type, and of course of super-giant size. Plants are compact, medium tall; upright. Profused flowering.

**Harrold's Pedigreed Giants:**
Undoubtedly this variety is among the finest Pansies now on the American market. It is of low bushy, upright habit, with the flowers born on long heavy stems well above the foliage. The flowers are of super-giant size which we do not believe is excelled among the zoned or face types. Coloring is of the greatest possible range, and like our other strains it is especially free flowering, producing a profusion of flowers at a season of the year when many strains are dormant; as well as being among the first to flower from seeds. Our most popular variety!

Strong seedling plants: $1.00 per 100; $5.00 per thousand; three thousand $14.00; five thousand $22.00; ten thousand $40.00.

Transplanted plants: $1.75 per 100; $14.00 per thousand; three thousand $38.

**OUR PANSY PLANT SERVICE**

We supply only strong, heavily rooted, field grown plants, that will give absolute satisfaction. Our shipping season is not interrupted during the winter, and we maintain complete line we have ever offered. Large plantings, superior growing conditions, realy modern packing, and over a quarter century experience in producing and shipping, coupled with the fact that we are growers of Pansy seeds in large quantities for the trade, enables us to supply quality stock and service that can't be excelled.

With restricted buying, especially of more expensive bulb and bedding stock, Pansies are due for a season of heavy a demand as they have experienced in several years. Be prepared to take advantage of this demand by having an adequate stock of really quality Pansy plants well grown and displayed. You will find too, that nothing will attract quite so much attention to your grounds in spring, as a conspicuously dis-played bed of Pansies. Well grown, and displayed Pansies always sell well.

We supply only strong, heavily rooted, field grown plants, that will give absolute satisfaction. Our shipping season is not interrupted during the winter, and we maintain forty-eight hour shipping service. Packing is light and strong, and your order will be given personal attention.

**GROUP “B”**

**Harrold's All-American Bedding Mixture:**
As the name implies, this is a mixture of all the best types being grown by American specialists. 80% of this mixture is composed of Harrold varieties, while the other 20% is composed of varieties originated by other American specialists - the seeds of which are grown in our test gardens annually. Without question this mixture contains the widest range of colors, and types obtainable in a single mixture today.

A field of HARROLD'S PEDIGREED GIANTS as it appeared in late May

**GROUP “C”**

**Greater American Perfection:**
(Harrold's original strain.) Since its original introduction several years ago, by our gardens, the florist industry has been consuming several million plants of this strain annually. It is an unusually fine variety with which to supply a highly competitive market in which price is a consideration. Mostly of the zoned type of flower marking, the range of color is exceptionally large and well balanced. The flowers are of giant size, and plant habit is excellent.

**Oregon Miracle Mixed:**
(Original Harrold strain.) This fine mixture is so well known as to need but brief description. It has a fine range of color, and the flowers are of good giant size. This strain has been standard for a long time and you'll like it.

**Swiss Giant:**
This strain, a progeny of the original, is vary popular with some growers.

**Matchless:**
This strain, a progeny of the original has enjoyed popularity in some districts.

**Early Pansy America:**
Recently introduced.

Strong seedling plants: $7.50 per 100; $4.00 per thousand; three thousand $10.00; five thousand $16.25; ten thousand $30.

Transplanted plants: $1.25 per 100; $10.00 per thousand; three thousand $27.50.

250 plants of a variety will be supplied at the 1000 rate. Prices on multiples of thousands between these quoted, are the same as for the next smaller quantity that is quoted.
